

**Prof. Thomas Bieber, MD, PhD, MDRA**

Scientific Director of the Medicine Programs of  
the Kühne-Foundation  
Medicine Campus Davos, Switzerland

Prof. Thomas Bieber is professor of Dermatology and Allergy with degrees in medicine (MD) and biology (PhD in immunology). He earned a master's degree in drug regulatory affairs (MDRA from the University of Bonn), achieving special expertise in preclinical and clinical drug development strategies, as well as in legal and market access aspects of drug approval. He has special expertise in translational and precision medicine approaches for skin diseases. From 1997 to 2023, he was chair at the Department of Dermatology and Allergy at the University of Bonn, Germany. From 2010 to 2017, he was chief editor of *Allergy*, the official journal of the EAACI. He was project leader of the Christine Kühne-Center for Allergy Research and Education. He founded the non-profit biotech company Davos Biosciences belonging to the international Kühne-Foundation from which he is currently the director of the medicine programs. Prof. Bieber has authored or coauthored more than 640 original publications (h-index = 104) and review articles, more than 100 book chapters and several books on AD and precision medicine. Highly cited researcher by Clarivate and top 10 cited researchers of the University of Bonn in 2023. He is a member of the German National Academy of Sciences Leopoldina.
